Summary

Passionate and motivated third-year B.Tech Information Technology student with hands-on experience in building full-stack web applications, Android applications, and AI-based software solutions. Skilled in Java, JavaScript, Python, Node.js, Express.js, PostgreSQL, HTML, CSS, Git, and REST APIs, with a strong foundation in data structures, algorithms, and database management. Committed to writing clean, efficient, and scalable code while solving real-world problems. Seeking a Software Developer Internship to apply my technical skills, collaborate with experienced teams, and contribute to impactful software products.

Education

Bachelor of Technology (B.Tech.) in Information Technology
Institute of Information & Communication Technology (IICT), MGM University
Chhatrapati Sambhajinagar, Maharashtra | Jul 2024 – Expected 2028
CGPA: 7.64/10 (up to sem III)

Skills

- **Programming Languages:** JavaScript, Python, C, C++
- **Frontend:** HTML, CSS, Bootstrap
- **Backend:** Node.js, Express.js
- **Databases:** PostgreSQL, MongoDB, MySQL
- **Tools:** Git/Github
- **Concepts:** Database Design, API Integration, Authentication, Object-Oriented Programming (OOP)

Projects

Face Attendance System

- Developed an AI-powered attendance system using Node.js, Express.js, OpenCV, and Face Recognition.
- Implemented real-time face detection for automatic attendance marking and reduced proxy attendance.
- Built REST APIs and integrated MySQL for secure attendance and student data management.

Technologies: Node.js, Express.js, OpenCV, Face Recognition, HTML, CSS, JavaScript, MySQL

Currency Converter

- Developed a real-time currency converter using HTML, CSS, JavaScript, and Exchange Rate API.
- Integrated live exchange rates for accurate and instant currency conversion.
- Built a responsive and user-friendly interface for fast global currency calculations.

Technologies: HTML, CSS, JavaScript, REST API
